

Key Stage Two Home Learning Activities: Year 6 (w/c 18th May)

Reading	Writing	Maths
<ul style="list-style-type: none"> - You can access some school reading books online through the Oxford Owl website. There are instructions of how to do this on the Year 6 page of the school website. - Log into Read Theory and complete some of the extracts on there. - Read the Armistice Runner extract and complete the questions 	<ul style="list-style-type: none"> - www.spellingshed.com daily practice – complete the assignments you are being set on there. - CGP Grammar book - Look at the 'Out of control' and 'Creature from the deep' writing packs. Use slides 2-5 to help you to prepare to complete the story which starts on page 1. - Write a news report. Focus on something real that is happening in the world now or take an event from home and write a news report about it as if it was front page news eg. Mum bakes giant cake for no reason! 	<ul style="list-style-type: none"> - www.trockstars.com daily practice – aim for 10 minutes daily. We are still competing against St Paul's until Friday. Try to play every day; aim for <u>a score of at least 250 a day</u> (This should be around 5-8 games for most of you). - CGP Maths book - BBC Bitesize provide daily lessons in a range of subjects. https://www.bbc.co.uk/bitesize/tags/zncsscw/year-6-and-p7-lessons/ Take a look at the daily Maths lessons. Here there are videos and worksheets which link to the Y6 Maths curriculum.
History/Geography	RE	Art/Design Technology
<ul style="list-style-type: none"> - Revise sustainability from our work in Geography earlier in the year. Look at the BBC Bitesize lesson https://www.bbc.co.uk/bitesize/articles/zOd.j7nb and complete the suggested activities, including making a presentation to show your learning about plastics and sustainability. This could be in the form of a series of posters. 	<ul style="list-style-type: none"> - In this coming Sunday's Gospel, Jesus prays for his disciples (John 17: 1-11). Who are you praying for? Write a series of prayers for the people you think need them the most at the moment. - If you were to have a conversation with God, what do you think he would say about the current situation. What would he be happy about? Consider the positives about this situation and write a letter from God's point of view to the human race. 	<ul style="list-style-type: none"> - Pick a new recipe out of a recipe book – something you haven't tried before. If you have the ingredients available to you, have a go at making it with someone at home or, create your own recipe with the ingredients you already have. Record your recipe and take pictures of what you make. - Have a go at making something creative using old toilet rolls. Look up the 'toilet roll art challenge' or Darrell Wakelam's toilet roll creations for some inspiration.
Science	PE	Computing
<ul style="list-style-type: none"> - Have a go at creating your own rainbows. Look at the Spectroscope and 'Make a rainbow in your garden' resources on our class page of the school website and try to have a go at the activities. - Can you create a rainbow in any other ways? - How are rainbows formed? 	<ul style="list-style-type: none"> - Join in with Joe Wicks and his daily workouts: https://www.youtube.com/channel/UCAxWIXTOiEJo0TYIRfn6rYQ - Create your own new sport using whatever materials you have available. Make up the rules and get people from your family to play along. Wall bounce? Balance splash? Polo golf? When you have it perfected, show me how to play! 	<ul style="list-style-type: none"> - Complete some of the Scratch projects at https://projects.raspberrypi.org/en/projects - I've seen a lot of great videos that people have sent in, showing a range of skills. Could you take it a step further and film your own mini movie? If you don't have enough willing actors at home to help, play all the characters yourself! Or, improvise with the toys you have at home!

ClassDojo:

If you're not already connected to the Class Dojo app, please consider logging in. If you have lost the code you were given, please contact school and we will get back to you with a new one. Through Class Dojo, I can communicate directly with parents. It's also been a really lovely way of me being able to see some of the work the children are doing at home and giving some positive feedback. I've seen lots of great work including writing and maths but also videos of gymnastics routines and speeches, and photographs of baking and art work. It's a great way of feeling more connected whilst we are all still separated.

Hope to see you on there soon,

Mrs Boon
