

 Designing a musical instrument 

Brief: To design and make a musical instrument that will be used to produce sound effect or as part of an accompanying piece of music.

What sort of instrument will it be?

---

How will it work?

---

What materials or junk items and tools will I need?

Draw a labelled diagram below to show how you plan to make your instrument (explain through the labels what it will be made of, what parts it has and how it is put together).
