

Make a magic potion

Ingredients:

Baking Soda
Food colouring
Glitter
Washing up liquid
Vinegar
Glass jar
Tray

Instructions:

Fill the jar halfway with vinegar, then add a few drops of one colour of food colouring and some glitter. Squeeze in some washing up liquid, stir, and place the jar on a tray.

Ask your child to add a heaped teaspoon of baking soda, stir again, and watch the foaming begin! The soap makes it foam rather than fizz.

To keep the reaction going continue adding baking soda and vinegar when the foam starts to slow. To make it change colours, add a tablespoon of vinegar mixed with one colour of food colouring every so often. Make sure to pour the coloured vinegar into the centre of the foam.
