

Note about the Abacus Maths Workbook file.

I have had a number of messages informing me that some children have completed their CPG Maths book. The Abacus Maths Workbook is 130 pages long. I am **not expecting 130 pages to be completed in one week** (the document is to be used, if you wish, throughout the rest of the term). I am also not expecting any pages to be printed out. Answers could be written in the blank book provided at the end of March (Please write which page number has been completed of you are uploading an image of it onto ClassDojo).

Many Thanks

Mrs Gale
